16 October 1958

MEMORANDUM FOR: Director of Training

SUBJECT : Intelligence School Weekly Report No. 41
8 through 16 October 1958

X1
X1
1. Two DDI training officers and one training assistant were briefed by [] on Wednesday, 15 October. Dr. [] then conducted them around the Intelligence School to introduce them to key faculty members.

X1
2. Mr. [] was advised by C/IS on 14 October concerning the syllabus for a two-week training course which he has been detailed to present for Personnel Officers. The course is a marathon sitting exercise in its present form, but Mr. [] professed to see the light and indicated his desire to re-design it to do a more effective teaching job. Advice to him is complicated by these factors:

(a) The Personnel Instructor assigned OTR is the logical person to prepare for, and coordinate such training. Neither of the two incumbents sent us by OP have been of sufficient stature to do this job, at least not in the view of responsible OP officials.

X1
(b) Mr. [] outline and lecture-heavy scheme of presentation had been ok'd by Mr. [] before it was brought over to be discussed; proposals for change made by DTR, C/A&E and C/IS are therefore embarrassing to a degree.

(c) There is apparently a lurking apprehension in Curie Hall somewhere that OTR will snatch away this training program from its present sponsors.

We made substantial progress against points (b) and (c). The lack of confidence in our present Personnel Instructor will be slow in being remedied.

X1
3. It will be requested for one member of the Operations Support Faculty to attend each day of the Administrative Officers' Conference at [] has informed us that such

CONFIDENTIAL

attendance will be possible only upon specific permission from Colonel White.

4. Mr. [] has returned from leave occasioned by his small son's pneumonia. He is now working on a draft of his report on Operations Support training. He will go to [] to check out on Friday, 24 October, and will return there for the last three weeks of the next running of the Operations Familiarization to complete the course.

5. Inquiries from Clerical Training Faculty members as to whether they had been considered for the vacancy created by [] rotation have been answered by C/IS on the following basis:

(a) No formal request for review of files, etc., was disseminated;

(b) In the judgment of C/IS the person in OTR best qualified to handle the job was the one who was actually designated;

(c) Continuing interest in rotation to admin- or personnel-type duties should not be dropped; renewed indications of interest through career plans, outside training, etc., will not go unnoticed.

6. Intelligence School positions were reviewed for the planning paper on flexible T/O being prepared by Mr. []. He now has our firm figures.

7. Preparations for the two-week American Outlook continue. Three major films, suitable as replacements for lectures, or as supplements to lectures, have been located and are being purchased.

8. Arrangements have been finally firmed up for running the Intelligence Products Exhibit and the Communism course, altering the schedule laid on with Mr. [] in June. The Intelligence Products Exhibit will be shifted from Thursday morning to Wednesday afternoon, 29 October, and the Intelligence Support Exhibit will be cancelled. Between 50 and 100 IB visitors, invited by DDI components, are being notified. The change in date has not so far caused any to cancel the visit.

[]
Chief, Intelligence School
